

NEP Industrial Heat Hazard Checklist

Are you aware of the the new OSHA National Emphasis Program (NEP) on Indoor and Outdoor Heat Hazards which is targeted at industries where there is a high risk of employee heat injury? *

Fill in the following checklist to find out if you are affected:

1. Do you work in an industry that OSHA has identified as having high heat-related hazards? *

Yes	No
<input type="checkbox"/>	<input type="checkbox"/>

2. Are your employees exposed to OSHA defined, high heat risk environments in indoor or outdoor working environments?

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

If you have answered 'yes' to either of the above questions, you are affected. Please go through the checklist to see how Equivital can help

3. Have you implemented a heat risk management program?

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

Go to question 4

Do you have the objective prerequisite data to create a heat risk management program?

No

If you do not have this data, can we assist you with data acquisition? Go to 'B' Offline/ Retrospective Blackghost Solution

4. If you have implemented a heat risk management program, have you audited the efficacy of the program?

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

Have you identified employees that are most at risk, and the locations, work functions and workwear that cause this risk? Employees most at risk would benefit from remote monitoring. Go to 'A' Black Ghost Live'

Go to 'B' Black Ghost Retrospective Solution

5. Do you have employees that wear level A PPE or who work in extreme heat environments?

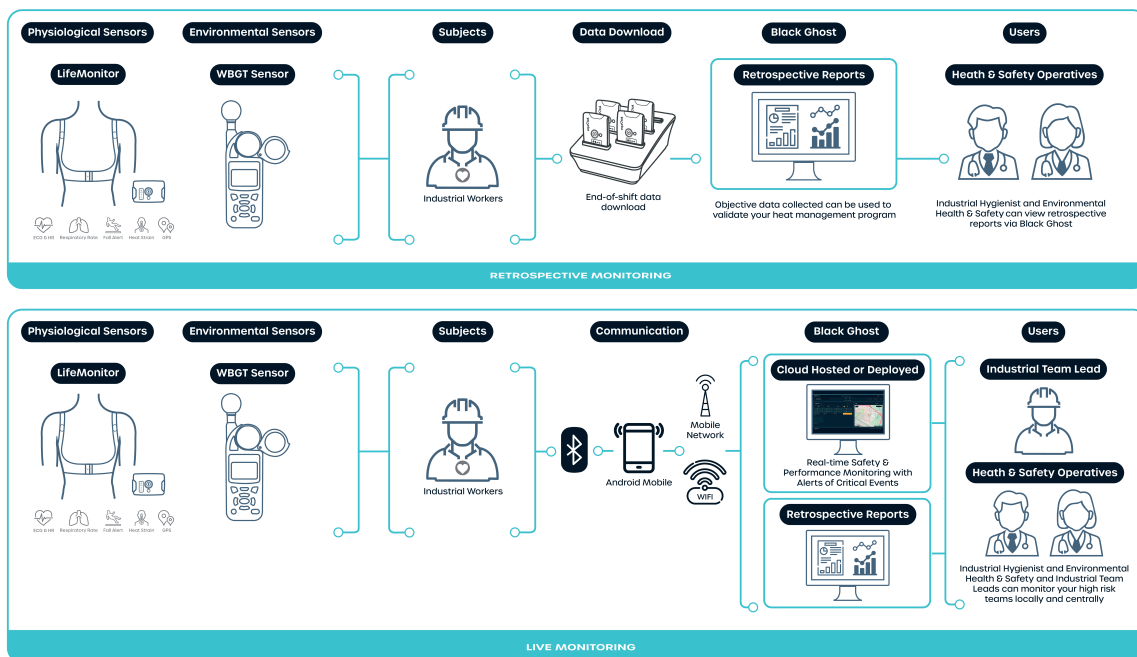

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

Go to 'A' Black Ghost Live Solution

NEP Industrial Heat Hazard Checklist

Equivital Black Ghost health monitoring solutions allow you to:

- Identify employee heat risk
- Implement a solution which provides objective heat risk data
- Measure the efficacy of the solution

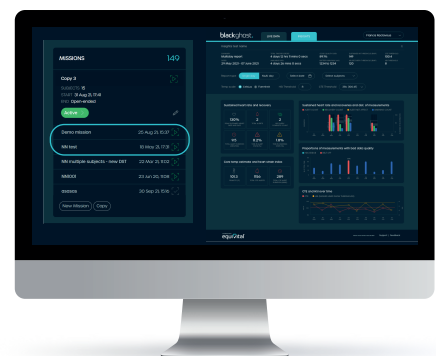

A

Black Ghost Live:
Real time physiological monitoring

B

Black Ghost Retrospective:
Data Reports with actionable data
